

Genie – GS-4655 E-Drive

Ref: WP20240 / £POA

Overview

The Genie GS4655 E-Drive is a robust, eco-friendly electric scissor lift engineered for high indoor and outdoor access in restricted spaces. It offers operators an excellent combination of working height and lifting capacity capabilities with powerful electric drive motors. This scissor lift is just 1.41m wide, but has the ability to reach an 15.95m working height indoors, and 8.55m outdoors. Unmatched driving performance and industry-leading runtime per battery charge.

Specification

- * Metric Working Height: 15.95m
- * Metric Platform Height: 13.95m
- * Metric Machine Width: 1.41m
- * Metric Lift Capacity: 350kg
